# Product End-of-Life Disassembly Instructions

**Product Category:** Personal Computers

**Marketing Name / Model**
[List multiple models if applicable.]

- HP EliteDesk 700 G1 MT Business PC

**Purpose:** The document is intended for use by end-of-life recyclers or treatment facilities. It provides the basic instructions for the disassembly of HP products to remove components and materials requiring selective treatment, as defined by EU directive 2002/96/EC, Waste Electrical and Electronic Equipment (WEEE).

## 1.0 Items Requiring Selective Treatment

1.1 Items listed below are classified as requiring selective treatment.

1.2 Enter the quantity of items contained within the product which require selective treatment in the right column, as applicable.

<table>
<thead>
<tr>
<th>Item Description</th>
<th>Notes</th>
<th>Quantity of items included in product</th>
</tr>
</thead>
<tbody>
<tr>
<td>Printed Circuit Boards (PCB) or Printed Circuit Assemblies (PCA)</td>
<td>With a surface greater than 10 sq cm yes</td>
<td>2</td>
</tr>
<tr>
<td>Batteries</td>
<td>All types including standard alkaline and lithium coin or button style batteries yes</td>
<td>1</td>
</tr>
<tr>
<td>Mercury-containing components</td>
<td>For example, mercury in lamps, display backlights, scanner lamps, switches, batteries</td>
<td></td>
</tr>
<tr>
<td>Liquid Crystal Displays (LCD) with a surface greater than 100 sq cm</td>
<td>Includes background illuminated displays with gas discharge lamps</td>
<td></td>
</tr>
<tr>
<td>Cathode Ray Tubes (CRT)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Capacitors / condensers (Containing PCB/PCT)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Electrolytic Capacitors / Condensers measuring greater than 2.5 cm in diameter or height</td>
<td>Acbel EPA85</td>
<td>3</td>
</tr>
<tr>
<td>External electrical cables and cords</td>
<td>AC cord</td>
<td>1</td>
</tr>
<tr>
<td>Gas Discharge Lamps</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Plastics containing Brominated Flame Retardants weighing &gt; 25 grams (not including PCBs or PCAs already listed as a separate item above)</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Components and parts containing toner and ink, including liquids, semi-liquids (gel/paste) and toner, including the cartridges, print heads, tubes, vent chambers, and service stations.

Components and waste containing asbestos

Components, parts and materials containing refractory ceramic fibers

Components, parts and materials containing radioactive substances

2.0 Tools Required

List the type and size of the tools that would typically be used to disassemble the product to a point where components and materials requiring selective treatment can be removed.

<table>
<thead>
<tr>
<th>Tool Description</th>
<th>Tool Size (if applicable)</th>

3.0 Product Disassembly Process

3.1 List the basic steps that should typically be followed to remove components and materials requiring selective treatment:

1. Remove the access panel.(see Figure 1 below)
2. Disconnect SATA data & power cables from MB and ODD&HDD. (see Figure 2-7 below)
3. Remove ODD or HDD from chassis.(see Figure 8-11 below)
4. Disconnect PSU cables from chassis.(see Figure 12-14 below)
5. Disconnect FIO bles from chassis.(see Figure 15-18 below)
6. Disconnect other cables and remove them from chassis.(see Figure 19-22 below)
7. Remove the Memory from MB.(see Figure 23 below)
8. Remove HeatSink from chassis and disassemble HeatSink.(see Figure 24-26 below)
9. Remove the CPU and battery from chassis.(see Figure 27-29 below)
10. Remove MB and Front Bezel from chassis.(see Figure 30-32 below)
11. Remove FIO and speaker from the chassis.(see Figure 33-34 below)
12. Remove system fan from the chassis.(see Figure 35 below)
13. Remove PSU from the MB.(see Figure 36-37 below)
14. Remove PSU cover and PSU fan, then disconnect all the cables.(see Figure 38-41 below)
15. Remove PSU PCA .(see Figure 42 below)
16. remove the Electrolytic Capacitors.(see Figure 43-45 below)

3.2 Optional Graphic. If the disassembly process is complex, insert a graphic illustration below to identify the items contained in the product that require selective treatment (with descriptions and arrows identifying locations).
