9227 Version #: 01 Issue date: 10-Nov-2018

SAFETY DATA SHEET

1. Identification

Name of the substance or mixture (trade name)

HP Color LaserJet C4194A Yellow Print Cartridge

Major recommended uses for the substance or mixture

This product is a yellow toner preparation that is used in HP Color LaserJet 4500/4550 series

printers.

Specific restrictions for use of

the substance or mixture

Not available.

Manufacturer/Importer/Distributor information

Company identification **HP Colombia SAS**

Carrera 7 No 99-53 Torre B Pisos 7

2. Hazards identification

Classification of the substance or mixture

Not classified. Physical hazards Not classified. **Health hazards Environmental hazards** Not classified.

GHS labeling elements, including precautionary statements

Hazard symbol(s) None. Signal word None.

Hazard statement(s) Not available.

Precautionary statement(s)

Not available. Prevention Not available. Response Not available. Storage **Disposal** Not available.

Other hazards which do not

result in classification

None of the other ingredients in this preparation are classified as carcinogens according to

ACGIH, EU, IARC, MAK, NTP or OSHA.

Supplemental information

3. Composition/information on ingredients

Mixture

Common chemical name or technical name	CAS number	Concentration or concentration range
Styrene acrylate copolymer	Trade Secret	<80

Titanium dioxide	13463-67-7	<1

4. First-aid measures

First-aid measures

Inhalation Move person to fresh air immediately. If irritation persists, consult a physician.

Skin contact Wash affected areas thoroughly with mild soap and water. Get medical attention if irritation

develops or persists.

Eye contact Do not rub eyes. Immediately flush with large amounts of clean, warm water (low pressure) for at

least 15 minutes or until particles are removed. If irritation persists, consult a physician.

Rinse mouth out with water. Drink one to two glasses of water. If symptoms occur, consult a

physician.

Not available.

Most important

Ingestion

symptoms/effects, acute and

delayed

Notes to physician Not available.

5. Fire-fighting measures

Means of fire extinguishing

Suitable extinguishing

media

CO2, water, or dry chemical

Unsuitable extinguishing

media

None known.

Specific hazards arising from

the chemical

Like most organic material in powder form, toner can form explosive dust-air mixtures when finely

dispersed in air.

Special fire fighting

procedures

If fire occurs in the printer, treat as an electrical fire.

Protective measures taken by

Not available.

firefighting crews

Specific methods

None established.

Hazardous combustion

products

Carbon monoxide and carbon dioxide.

6. Control measures for spills and leaks

Personal precautions, protective equipment and emergency procedures

To be taken by those who are not involved in rendering emergency

services

Minimize dust generation and accumulation.

To be taken by those who are involved in rendering emergency services

Not available.

Environmental precautions

Do not flush into surface water or sanitary sewer system. See also section 13 Disposal

considerations.

Methods and materials for containment and cleaning up Slowly vacuum or sweep the material into a bag or other sealed container. Clean remainder with a damp cloth or vacuum cleaner. If a vacuum is used, the motor must be rated as dust

explosion-proof. Fine powder can form explosive dust-air mixtures. Dispose of in compliance with federal, state, and local regulations.

7. Handling and storage Precautions for safe handling

Keep out of the reach of children. Avoid inhalation of dust and contact with skin and eyes. Use with

adequate ventilation. Keep away from excessive heat, sparks, and open flames.

Conditions for safe storage, including any incompatibilities Keep out of the reach of children. Keep tightly closed and dry. Store at room temperature. Store away from strong oxidizers.

8. Exposure controls/personal protection

Other physical and chemical parameters

Oxidizing properties No information available.

Percent volatile 0 % estimated

Softening point 212 - 302 °F (100 - 150 °C)

10. Stability and reactivity

Reactivity Not available.

Chemical stability Stable under normal storage conditions.

Possibility of hazardous

reactions

Will not occur.

Conditions to avoid Not available.

Incompatible materials Strong oxidizers

Hazardous decomposition

products

Carbon monoxide and carbon dioxide.

11. Toxicological information

Information on likely routes of exposure

Inhalation Under normal conditions of intended use, this material is not expected to be an inhalation hazard.

Skin contactContact with skin may result in mild irritation.Eye contactContact with eyes may result in mild irritation.IngestionIngestion is not a likely route of exposure.

Symptoms Not available.

Acute toxicityBased on available data, the classification criteria are not met.Skin irritation and corrosionBased on available data, the classification criteria are not met.Serious eye damage/eyeBased on available data, the classification criteria are not met.

irritation

Respiratory or skin sensitization

Respiratory sensitizationBased on available data, the classification criteria are not met. **Skin sensitization**Based on available data, the classification criteria are not met.

Germ cell mutagenicity Negative, does not indicate mutagenic potential (Ames Test: Salmonella typhimurium)

Based on available data, the classification criteria are not met.

Carcinogenicity Based on available data, the classification criteria are not met.

Disclaimer

This Safety Data Sheet document is provided without charge to customers of HP. Data is the most current known to HP at the time of preparation of this document and is believed to be accurate. It should not be construed as guaranteeing specific properties of the products as described or suitability for a particular application. This document was prepared to the requirements of the jurisdiction specified in Section 1 above and may not meet regulatory requirements in other countries.

This safety data sheet is meant to convey information about HP inks (toners) provided in HP Original ink (toner) supplies. If our Safety Data Sheet has been provided to you with a refilled, remanufactured, compatible or other non-HP Original supply please be aware that the information contained herein was not meant to convey information about such products and there could be considerable differences from information in this document and the safety information for the product you purchased. Please contact the seller of the refilled, remanufactured or compatible supplies for applicable information, including information on personal protective equipment, exposure risks and safe handling guidance. HP does not accept refilled, remanufactured or compatible supplies in our recycling programs.
