

# SAFETY DATA SHEET

Issue date: 09-Jan-2019 Revision date: 20-Oct-2020

Version #: 03

## 1. Chemical and company identification

Important information \*\*\* This Safety Data Sheet is only authorised for use by HP for HP Original products. Any

unauthorised use of this Safety Data Sheet is strictly prohibited and may result in legal action

being taken by HP. \*\*\*

Name of chemical (Product

name)

ML-1710Series

HP Japan Inc.

5F Ojima2-2-1 Koto-ku Tokyo, Japan 136-8711

hpcustomer.inquiries@hp.com

#### Recommended use of the chemical and restrictions on use

Intended use This product is a toner mixture that is used in printing systems.

#### 2. Hazards identification

#### **GHS** classification

The product is not classified according to GHS.

### **GHS** label elements

None. **Symbols** Signal words None. **Hazard statement** None

**Precautionary statement** 

None. Prevention Response None. Storage None. Disposal None.

Other hazards which do not

result in classification

Carbon black is classified by the IARC as a Group 2B carcinogen (the substance is possibly carcinogenic to humans). Carbon black in this preparation, due to its bound form, does not present this carcinogenic risk. None of the other ingredients in this preparation are classified as

carcinogens according to ACGIH, EU, IARC, MAK, NTP or OSHA.

Supplemental information None.

### 3. Composition/information on ingredients

Substance or mixture Mixture

	Gazette notification			
Components	CAS Number	ENCS no.	ISHL no.	Concentration (%)
Black Pigment	Proprietary	Proprietary	Proprietary	<5
Paraffin waxes and Hydrocarbon waxes	8002-74-2	(2)-10, (8)-414	(2)-10, (8)-414	<2.5

## 4. First aid measures

If inhaled Move person to fresh air immediately. If irritation persists, consult a physician.

If on skin Wash affected areas thoroughly with mild soap and water. Get medical attention if irritation

develops or persists.

Company name: HP Japan Inc. Product name: ML-1710Series SDS JAPAN 14635 Version #: 03 Revision date: 20-Oct-2020 1/6

Do not rub eyes. Immediately flush with large amounts of clean, warm water (low pressure) for at If in eyes

least 15 minutes or until particles are removed. If irritation persists, consult a physician.

Rinse mouth with water. Drink one to two glasses of water. DO NOT induce vomiting. Get medical If swallowed

attention immediately.

Most important

symptoms/effects, acute and

delayed

Difficulty in breathing, Coughing,

Protection of first-aid responders

Ensure that medical personnel are aware of the material(s) involved, and take precautions to

protect themselves.

Notes to physician Treat symptomatically.

## 5. Fire-fighting measures

Extinguishing media Dry chemical, foam, carbon dioxide, water fog.

Do not use water jet as an extinguisher, as this will spread the fire. Extinguishing media to avoid

During fire, gases hazardous to health may be formed. Specific hazards Special fire fighting Move containers from fire area if you can do so without risk.

procedures

**Protection of fire-fighters** General fire hazards

Firefighters should wear full protective clothing including self contained breathing apparatus.

No unusual fire or explosion hazards noted.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

### 6. Accidental release measures

Personal precautions, protective equipment and emergency measures

Keep unnecessary personnel away. Wear appropriate protective equipment and clothing during clean-up. Use a NIOSH/MSHA approved respirator if there is a risk of exposure to dust/fume at levels exceeding the exposure limits. See Section 8 of the SDS for Personal Protective Equipment.

**Environmental precautions** 

Avoid discharge into drains, water courses or onto the ground.

Methods or materials for containment and cleaning up

Avoid the generation of dusts during clean-up. Use explosion proof electric equipment. Collect dust using a vacuum cleaner equipped with HEPA filter. The product is immiscible with water and will spread on the water surface. Stop the flow of material, if this is without risk. Sweep up or vacuum up spillage and collect in suitable container for disposal.

## 7. Handling and storage

### Handling

Technical measures (e.g.

Local and general ventilation)

Not available.

Safe handling advice Not available.

Hygiene measures

Keep away from food, drink and animal feeding stuffs. Wash hands before breaks and immediately

after handling the product.

Storage

Safe storage conditions

Store in tightly closed original container. Store in a well-ventilated place. Store away from

incompatible materials (see Section 10 of the SDS).

Not available. Safe packaging materials

### 8. Exposure controls/personal protection

#### Occupational exposure limits

Japan. OELs - JSOH (Japan Society of Occupational Health: Recommendation of Occupational Exposure Limits) Components Value **Form Type** 

**Black Pigment TWA** Total dust. 4 mg/m3 1 mg/m3 Respirable dust.

**US. ACGIH Threshold Limit Values** 

**Form** Components Value **Type Black Pigment TWA** 3 mg/m3 Inhalable fraction. Paraffin waxes and **TWA** 2 mg/m3 Fume. Hydrocarbon waxes (CAS 8002-74-2)

### **Engineering measures**

Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. If engineering measures are not sufficient to maintain concentrations of dust particulates below the Occupational Exposure Limit (OEL), suitable respiratory protection must be worn. If material is ground, cut, or used in any operation which may generate dusts, use appropriate local exhaust ventilation to keep exposures below the recommended exposure limits.

Personal protective equipment

Respiratory protection No personal respiratory protective equipment required under normal conditions of use.

Hand protection Rubber gloves are recommended. Wash hands after handling.

Keep away from food, drink and animal feeding stuffs. Wash hands before breaks and immediately Hygiene measures

after handling the product.

Personal protective equipment

Eye protection Wear safety glasses with side shields (or goggles).

Protection suit must be worn. Skin and body protection

## 9. Physical and chemical properties

**Appearance** 

Physical state Not available. **Form** Solid. Fine powder

Color Black. Odor Odorless Not available. pН Not available. Melting point/Freezing point Boiling point, initial boiling Not available. point, and boiling range

Not available Flash point

Upper/lower flammability or explosive limits

Flammability limit - lower

(%)

Not available.

Flammability limit - upper

(%)

Not available.

Explosive limit - lower (%) Not available. Explosive limit - upper (%) Not available. Vapor pressure Not available. Not available. Vapor density Not available. Specific gravity

Solubility(ies)

Insoluble in water. Solubility (water)

Solubility (other) Partially soluble in toluene, chloroform and tetrahydrofuran

Partition coefficient (n-octanol/water)

Not available.

**Auto-ignition temperature** 

Not available. **Decomposition temperature** > 392 °F (> 200 °C)

Viscosity (Coefficient of

viscosity)

Not available.

Other information

No information available. **Oxidizing properties** 

## 10. Stability and reactivity

Reactivity The product is stable and non-reactive under normal conditions of use, storage and transport.

Stable under normal storage conditions. **Chemical stability** 

Possibility of hazardous

reactions

No dangerous reaction known under conditions of normal use.

Conditions to avoid Avoid temperatures exceeding the decomposition temperature. Contact with incompatible

Incompatible materials This product may react with strong oxidizing agents.

Company name: HP Japan Inc. Product name: ML-1710Series 14635 Version #: 03 Revision date: 20-Oct-2020

Carbon monoxide and carbon dioxide.

### 11. Toxicological information

**Acute toxicity** Based on available data, the classification criteria are not met.

LD50/oral/rat >5000 mg/kg.

Components **Species Test Results** 

**Black Pigment** 

**Acute** Oral

LD50 Rat > 10000 mg/kg

Skin corrosion/irritation Based on available data, the classification criteria are not met.

Not a known irritant. (OECD 404).

Serious eye damage/eye

irritation

Based on available data, the classification criteria are not met.

Not a known irritant. (OECD 405).

Respiratory or skin sensitization

Respiratory sensitization Not a respiratory sensitizer.

This product is not expected to cause skin sensitization. Skin sensitization Germ cell mutagenicity Based on available data, the classification criteria are not met. Negative Ames Test (Test strains: Salmonella typhimurium).

Carcinogenicity Based on available data, the classification criteria are not met.

> Carbon black is classified as a carcinogen by the IARC (possibly carcinogenic to humans, Group 2B) and by the State of California under Proposition 65. In their evaluations of carbon black, both organizations indicate that exposure to carbon black, per se, does not occur when it remains bound within a product matrix, specifically, rubber, ink, or paint. Carbon black is present only in a

bound form in this preparation.

**ACGIH Carcinogens** 

Black Pigment (CAS Proprietary) A3 Confirmed animal carcinogen with unknown relevance to

humans.

IARC Monographs. Overall Evaluation of Carcinogenicity

Black Pigment (CAS Proprietary) 2B Possibly carcinogenic to humans.

Japan Society for Occupational Health: Carcinogen

Black Pigment (CAS Proprietary) 2B Possibly carcinogenic to humans.

Reproductive toxicity This product is not expected to cause reproductive or developmental effects.

Specific target organ toxicity -

single exposure

Based on available data, the classification criteria are not met.

Specific target organ toxicity repeated exposure

Based on available data, the classification criteria are not met.

**Aspiration hazard** 

Based on available data, the classification criteria are not met.

Other information

Complete toxicity data are not available for this specific formulation

Refer to Section 2 for potential health effects and Section 4 for first aid measures.

In a study in rats (H.Muhle) by chronic inhalation exposure to a typical toner, a mild to moderate degree of lung fibrosis was observed in 92% of the rats in the concentration(16mg/m3) exposure group, and a minimal to mild degree of fibrosis was noted in 22% of the animals in the middle (4mg/m3) exposure group. But no pulmonary changes was reported in the lowest (1mg/m3) exposure group, the most relevant level to potential human exposures.

In 1996, the IARC revaluated carbon black as a GROUP 2B carcinogen (possible human carcinogen). This evaluation is given to carbon black for which there is inadequate human evidence, but sufficient animal evidence. The latter is based upon the developer of lung tumors in rat receiving chronic inhalation exposures to free carbon black at level that induce particle overload of the lung. Studies performed in animal models other than rats have not demonstrated an association between carbon black and lung tumors. Moreover, a two-year cancer bioassay using a typical toner preparation containing carbon black demonstrated no association between toner exposure and tumor development in rats.

### 12. Ecological information

The product is not classified as environmentally hazardous. However, this does not exclude the **Ecotoxicity** possibility that large or frequent spills can have a harmful or damaging effect on the environment.

Persistence and degradability

No data is available on the degradability of any ingredients in the mixture.

**Bioaccumulation** Not available.

Company name: HP Japan Inc. Product name: ML-1710Series

Mobility in soil Not available.

Hazardous to the ozone layer Not available.

### 13. Disposal considerations

#### Local disposal regulations

Dispose of in compliance with federal, state, and local regulations. Do not shred toner cartridge, unless dust-explosion prevention measures are taken. Do not put toner container into fire; heated toner may cause severe burns. Do not incinerate. Do not allow this material to drain into sewers/water supplies.

HP's Planet Partners (trademark) supplies recycling program enables simple, convenient recycling of HP original inkjet and LaserJet supplies. For more information and to determine if this service is available in your location, please visit http://www.hp.com/recycle.

## 14. Transport information

#### DOT

Not regulated as dangerous goods.

#### IATA

Not regulated as dangerous goods.

#### **IMDG**

Not regulated as dangerous goods.

#### **ADR**

Not regulated as dangerous goods.

**Further information** 

Not a dangerous good under DOT, IATA, ADR, IMDG, or RID.

## 15. Regulatory information

### Regulatory information

All chemical substances in this HP product have been notified or are exempt from notification under chemical substances notification laws in the following countries: US (TSCA), EU (EINECS/ELINCS), Switzerland, Canada (DSL/NDSL), Australia, Japan, Philippines, South Korea, New Zealand. and China.

## 16. Other information

This Safety Data Sheet document is provided without charge to customers of HP. Data is the most current known to HP at the time of preparation of this document and is believed to be accurate. It should not be construed as guaranteeing specific properties of the products as described or suitability for a particular application. This document was prepared to the requirements of the jurisdiction specified in Section 1 above and may not meet regulatory requirements in other countries.

This safety data sheet is meant to convey information about HP inks (toners) provided in HP Original ink (toner) supplies. If our Safety Data Sheet has been provided to you with a refilled, remanufactured, compatible or other non-HP Original supply please be aware that the information contained herein was not meant to convey information about such products and there could be considerable differences from information in this document and the safety information for the product you purchased. Please contact the seller of the refilled, remanufactured or compatible supplies for applicable information, including information on personal protective equipment, exposure risks and safe handling guidance. HP does not accept refilled, remanufactured or compatible supplies in our recycling programs.
