# Product Safety Data Sheet

## LGC Lithium- Ion Rechargeable Polymer Battery Pack

**LG CHEMICAL LTD**

### SECTION 1  Product and Company Identification

**PRODUCT IDENTIFICATION**
- **HP HSTNN-LB5Q, LGC 2P2S** Lithium-Ion Polymer Battery Pack
- Battery pack model : RG04051XL
- Revision date: Aug, 22, 2013
- Battery pack Electric Power Capacity: 51Wh

**MANUFACTURING/DISTRIBUTOR**
- LG Chemical Ltd. Twin Tower Youido-Dong 120, Youngdeungpo-Ku, Seoul, Korea

**PHONE NUMBER**
- Tel: + 82-2-3773-3739

### SECTION 2  Composition and Information on Ingredients

* Watt-hour : 51 Wh

UN CLASS

1. Even classified as lithium batteries (UN3480), 2013 IATA Dangerous Goods Regulations 54th edition Packing Instruction 965 section II or IB is applied.

The general and additional requirements apply to all lithium ion cells and batteries prepared for transport according to this packing instruction:
1) Section IA applies to lithium ion cells with a Watt-hour rating in excess of 20 Wh and lithium ion batteries with a Watthour rating in excess of 100 Wh, or to quantities of lithium ion cells or batteries in excess of those permitted in Section IB of this packing instruction which must be assigned to Class 9 and are subject to all of the applicable requirements of these Regulations;
2) Section IB applies to lithium ion cells with a Watt-hour rating not exceeding 20 Wh and lithium ion batteries with a Watthour rating not exceeding 100 Wh packed in quantities that exceed the allowance permitted in Section II, Table 965-II; and
3) Section II applies to lithium ion cells with a Watt-hour rating not exceeding 20 Wh and lithium ion batteries with a Watt-hour rating not exceeding 100 Wh packed in quantities not exceeding the allowance permitted in Section II, Table 965-II.

<table>

<tbody>
<tr>
<td>Contents</td>
</tr>
<tr>
<td>r</td>
</tr>
<tr>
<td>Maximum number of cells/batteries per package</td>
</tr>
<tr>
<td>Maximum net quantity per package</td>
</tr>
</tbody>
</table>

Cells and/or batteries specified in columns 2, 3 and 4 of Table 965-II must not be combined in the same package.
Each cell or battery is of the type proven to meet the requirements of each test in the UN Manual of Tests and Criteria Part 3 subsection 38.3.

2. Even classified as lithium batteries packed with equipment (UN3481), 2012 IATA Dangerous Goods Regulations 52nd edition Packing Instruction 966 section II is applied. The product is handled as
Non-Dangerous Goods by meeting the following requirements.

Lithium ion cells and batteries offered for transport are not subject to other additional requirements of the UN Regulations if they meet the following.
- For cells, the Watt-hour rating is not more than 20Wh
- For batteries, Watt-hour rating is not more than 100Wh
  The Watt-hour rating must be marked on outside of the battery case except those manufactured before 1 January, 2009 which may be transported without this marking until 31 December 2012.
- Each cell or battery is of the type proven to meet the requirements of each test in the UN Manual of Tests and Criteria part (subsection 38.3)
- Maximum quantity : Minimum needed for the operation of the equipment, plus 2 spares.

And they are out of scope for Special Provision A154 and comply with Special Provision A164.

This product passed 1.2M drop test and comply with UN38.3.

SECTION 3  Hazards Identification

EMERGENCY OVERVIEW

During a fire, may release irritating gases.
Use extinguishing media suitable for materials burning in fire.

POTENTIAL HEALTH EFFECTS

EYE
  No effect under routine handling and use.

SKIN
  No effect under routine handling and use. Nothing cause sensitization(Allergic reaction)

INHALATION
  No effect under routine handling and use.

CHRONIC EFFECTS
  None known.

CARCINOGENICITY INFORMATION
  The components of this product are not listed by IARC, NTP, OSHA, or ACGH as a carcinogen.

SECTION 4  First Aid Measures
If exposure to internal materials within cell due to damaged outer casing, the following actions are recommended.

**EYE CONTACT**  
In case of eye contact, immediately flush eyes with plenty of water at least 15 minutes. Get medical attention if irritation persists or develops later.

**INHALATION**  
If exposed to excessive levels of DMAc, fiber dust or fly, remove to fresh air. Get medical attention if cough or symptoms develop.

**SKIN CONTACT**  
Wash with soap and water. Get medical attention if irritation develops or persists. Use hand creams to soothe and moisten irritated skin.

**INGESTION**  
Not a probable route. However, in case of gastro intestinal distress following accidental ingestion, call a physician.

### SECTION 5  Fire Fighting Measures

**FLAMMABLE PROPERTIES**

<table>

</tr>
<tr>
<td>Upper explosive limits</td>
<td>Not established</td>
</tr>
<tr>
<td>Auto-ignition temperature</td>
<td>Not available</td>
</tr>
</tbody>
</table>

**UNUSUAL FIRE AND EXPLOSION HAZARDS**

During a fire, irritating and toxic gases and aerosols may be generated by thermal decomposition and Combustion.

**EXTINGUISHING MEDIA**

Use the following extinguishing media suitable for the materials that are burning.  
: Water, Carbon Dioxide, Dry Chemical, Foam

**FIRE FIGHTING INSTRUCTIONS**

Keep personnel removed and upwind of fire.
Wear self-contained breathing apparatus.
Wear full protective equipment (full Bunker gear)

SECTION 6  Accidental Release Measures

SAFEGUARDS (Personnel)
Review FIRE FIGHTING MEASURES and HANDLING sections before proceeding with cleanup.
Use appropriate personal protective equipment during cleanup.

SPILL CLEANUP
Vacuum or sweep up material for salvage or disposal.

ACCIDENTAL RELEASE MEASURES
Wash, shovel or mop up and place in solid waste containers.
Do not flush to drains.

SECTION 7  Handling and Storage

HANDLING
Use good material handling practice.

STORAGE
Store in a cool, dry place.

SECTION 8  Exposure Controls / Personal Protection

ENGINEERING CONTROLS
Keep away from heat and open flame.
Good general ventilation is recommended. Local exhaust ventilation is recommended where vapors are likely to be released.

PERSONAL PROTECTIVE EQUIPMENT

EYE PROTECTION
Not required beyond safety practices of employer.
But in the event of a fire, safety glasses with side-shields for general protection are recommended.

SKIN PROTECTION
None required normal operations.
If during a fire, wear gloves to prevent skin abrasion and irritation.
RESPIRATOR PROTECTION

Respirator use must be in accordance with OSHA Standard 29 CFR 1910.134
Wear a correctly fitted, NIOSH approved, respirator or industrial type canister mask in enclosed areas with poor or no ventilation areas, or where TLV levels are likely to be exceeded.

SECTION 9   Physical and Chemical Properties

</tr>
</tbody>
</table>

SECTION 10   Stability and Reactivity

CHEMICAL STABILITY
Stable at normal temperatures and storage conditions.

CONDITIONS TO AVOID
Avoid exposure to heat and open flame. Do not puncture, crush or incinerate.
**SECTION 11  Toxicological Information**

**IMMEDIATE (ACUTE) EFFECTS**
None known

**DELAYED(SUBCHRONIC & CHRONIC) EFFECTS**
None known

**OTHER DATA**
Not available

**SECTION 12  Ecological Information**

No ecological information available

**SECTION 13  Disposal Considerations**

Store in impervious inert container and send to smelter for recycling. Must be treated as special waste. In general, this product may be discarded in accordance with the State and Local regulations.

**SECTION 14  Transport Information**

Lithium Ion batteries are considered to be "Rechargeable batteries" and meet the requirements of transportation by the U.S. Department of Transportation(DOT), the International Civil Aviation Administration(ICAO), the International Maritime Dangerous Goods (IMDG) Code. Even classified as lithium ion batteries (UN3480), 2013 IATA Dangerous Goods Regulations 54th edition Packing Instruction 965 Section IB or II is applied. The general and additional requirements apply to all lithium ion cells and batteries prepared for
transport according to this packing instruction:
1) Section IB applies to lithium ion cells with a Watt-hour rating not exceeding 20 Wh and lithium ion batteries with a Watt-hour rating not exceeding 100 Wh packed in quantities that exceed the allowance permitted in Section II, Table 965-II; and
2) Section II applies to lithium ion cells with a Watt-hour rating not exceeding 20Wh and lithium ion batteries with a Watt-hour rating not exceeding 100 Wh packed in quantities not exceeding the allowance permitted in Section II, Table 965-II.

</table>

Cells and/or batteries specified in columns 2, 3 and 4 of Table 965-II must not be combined in the same package.
Each cell or battery is of the type proven to meet the requirements of each test in the UN Manual of Tests and Criteria Part 3 subsection 38.3.

**SECTION 15 Regulatory Information**

OSHA hazard communication standard (29 CFR 1910.1200)

_____Hazardous     ____V____Non-hazardous

**SECTION 16 Other Information**

The data in this Product Safety Data Sheet relates only to the specific product designated herein and does not relate to use in combination with any other product or in any process. This PSDS may not meet regulatory requirements in other countries. This information is based on technical information believed to be reliable. It is subject to revision as additional knowledge and experiences are gained.
