Carbon black | This ink supply contains an aqueous ink formulation. This product has been evaluated using criteria specified in 29 CFR 1910.1200 (Hazard Communication Standard). Carbon black is present only in a bound form in this preparation.

4. First-aid measures
Inhalation | Remove to fresh air. If symptoms persist, get medical attention.
Skin contact | Wash affected areas thoroughly with mild soap and water. Get medical attention if irritation develops or persists.
Eye contact | Do not rub eyes. Immediately flush with large amounts of clean, warm water (low pressure) for at least 15 minutes or until particles are removed. If irritation persists get medical attention.
Ingestion | If ingestion of a large amount does occur, seek medical attention.
Most important symptoms/effects, acute and delayed | Not available.

5. Fire-fighting measures
Suitable extinguishing media | For small (incipient) fires, use media such as foam, sand, dry chemical, or carbon dioxide. For large fires use very large (flooding) quantities of water and/or foam, applied as a mist or spray.
Unsuitable extinguishing media | None known.
Specific hazards arising from the chemical | None known.
Special protective equipment and precautions for firefighters | Not available.
Specific methods | None established.

6. Accidental release measures
Personal precautions, protective equipment and emergency procedures | Wear appropriate personal protective equipment.
Methods and materials for containment and cleaning up | Dike the spilled material, where this is possible. Absorb with inert absorbent such as dry clay, sand or diatomaceous earth, commercial sorbents, or recover using pumps.
Environmental precautions | Do not let product enter drains. Do not flush into surface water or sanitary sewer system.

7. Handling and storage
Precautions for safe handling | Avoid contact with skin, eyes and clothing.
Conditions for safe storage, including any incompatibilities | Keep out of the reach of children. Keep away from excessive heat or cold.

8. Exposure controls/personal protection

Carbon black is classified as a carcinogen by the IARC (possibly carcinogenic to humans, Group 2B) and by the State of California under Proposition 65. In their evaluations of carbon black, both organizations indicate that exposure to carbon black, per se, does not occur when it remains bound within a product matrix, specifically, rubber, ink, or paint. Carbon black is present only in a bound form in this preparation.
