### 4. First-aid measures

**Inhalation**  
Move person to fresh air immediately. If irritation persists, consult a physician.

**Skin contact**  
Wash affected areas thoroughly with mild soap and water. Get medical attention if irritation develops or persists.

**Eye contact**  
Do not rub eyes. Immediately flush with large amounts of clean, warm water (low pressure) for at least 15 minutes or until particles are removed. If irritation persists, consult a physician.

**Ingestion**  
Not available.

**Most important symptoms/effects, acute and delayed**  
Not available.

### 5. Fire-fighting measures

**Suitable extinguishing media**  
CO2, water, or dry chemical

**Unsuitable extinguishing media**  
None known.

**Specific hazards arising from the chemical**  
Like most organic material in powder form, toner can form explosive dust-air mixtures when finely dispersed in air.

**Special protective equipment and precautions for firefighters**  
Not available.

**Fire fighting equipment/instructions**  
If fire occurs in the printer, treat as an electrical fire.

**Specific methods**  
None established.

### 6. Accidental release measures

**Personal precautions, protective equipment and emergency procedures**  
Minimize dust generation and accumulation.

**Methods and materials for containment and cleaning up**  
Slowly vacuum or sweep the material into a bag or other sealed container. Clean remainder with a damp cloth or vacuum cleaner. If a vacuum is used, the motor must be rated as dust explosion-proof. Fine powder can form explosive dust-air mixtures. Dispose of in compliance with federal, state, and local regulations.

**Environmental precautions**  
Do not flush into surface water or sanitary sewer system. See also section 13 Disposal considerations.

### 7. Handling and storage

**Precautions for safe handling**  
Keep out of the reach of children. Avoid inhalation of dust and contact with skin and eyes. Use with adequate ventilation. Keep away from excessive heat, sparks, and open flames.

**Conditions for safe storage, including any incompatibilities**  
Keep out of the reach of children. Keep tightly closed and dry. Store at room temperature. Store away from strong oxidizers.

Carbon black is classified as a carcinogen by the IARC (possibly carcinogenic to humans, Group 2B) and by the State of California under Proposition 65. In their evaluations of carbon black, both organizations indicate that exposure to carbon black, per se, does not occur when it remains bound within a product matrix, specifically, rubber, ink, or paint. Carbon black is present only in a bound form in this preparation. None of the other ingredients in this preparation are classified as carcinogens according to ACGIH, EU, IARC, MAK, NTP or OSHA.
