

SAFETY DATA SHEET

1. Identification of the chemical and information about the manufacturer or supplier

Important information *** This Safety Data Sheet is only authorised for use by HP for HP Original products. Any

unauthorised use of this Safety Data Sheet is strictly prohibited and may result in legal action

being taken by HP. ***

1.1 Identification of the chemical products

1.1.1 Technical name D8J33Series

Other means of identification None.

1.1.2 Recommended use of the chemical and restrictions on use

Recommended use Inkjet printing Limitations on use None known.

1.2 Manufacturer/Importer/Supplier/Distributor information

1.2.1 Manufacturer

ZAO Hewlett-Packard A.O.

Highway Leningradskoe, House 16A, Building 3,

125171, Moscow

Telephone 7 495 797-3500

2. Hazard(s) identification

2.1. Hazard identification of chemical product as a whole (classification according to GOST 12.1.007-76 and GHS)

Classification according to Not available.

GOST 12.1.007-76

GHS classification

Physical hazards Not classified.

Health hazards Not classified.

Environmental hazards Not classified.

2.2 Labeling elements in compliance with GOST 31340-2013

2.2.1 Signal word None.2.2.2 Symbols None.

2.2.3 Hazard statement Not available.

Precautionary statement

PreventionNot available.ResponseNot available.StorageNot available.DisposalNot available.

Other hazards Carbon black is classified by the IARC as a Group 2B carcinogen (the substance is possibly

carcinogenic to humans). Carbon black in this preparation, due to its bound form, does not present

this carcinogenic risk. None of the other ingredients in this preparation are classified as carcinogens according to ACGIH, EU, IARC, MAK, NTP or OSHA. Potential routes of

overexposure to this product are skin and eye contact. Inhalation of vapor and ingestion are not expected to be significant routes of exposure for this product under normal use conditions.

Complete toxicity data are not available for this specific formulation.

Supplemental information 2-pyrrolidone: Specific Concentration Limits, Reproductive toxicity Category 1B, fertility or the

unborn child 3%. Mixture classification threshold based on data related to developmental toxicity in animals. No adverse effects on sexual function or damage to fertility have been observed in an

animal study. See Section 11.

Material name: D8J33Series SDS RUSSIA

3. Composition/information on ingredients

3.1 Information on product as a whole

3.1.1 Chemical name

(IUPAC)

D8J33Series

3.1.2 Chemical formula

Not available.

3.1.3 General description of the composition (taking into account the brand assortment; preparation

Not available.

method)

3.2 Components

Hygienic standards in the working area

Components	Concentration by weight (%)	MAC, mg/m3	TSEL, mg/m3	Hazard classification	CAS-No.	EC No.
Water	65-85	None.	None.		7732-18-5	231-791-2
2-pyrrolidone	< 2.5	10 Aerosol.	None.	4	616-45-5	210-483-1

Composition comments

This ink supply contains an aqueous ink formulation.

Carbon black is present only in a bound form in this preparation.

2-pyrrolidone: Specific Concentration Limit 3%. Mixture classification threshold based on data related to developmental toxicity in animals. No adverse effects on sexual function or damage to fertility have been observed in an animal study. See Section 11.

4. First-aid measures

4.1. Observed symptoms

4.1.1 In case of exposure via inhalation

Under normal conditions of intended use, this material is not expected to be an inhalation hazard.

4.1.2 In contact with skin

Contact with skin may result in mild irritation.

4.1.3 In contact with eyes

Contact with eyes may result in mild irritation.

4.1.4 In case of exposure

via ingestion

Health injuries are not known or expected under normal use.

4.2 First-aid measures to be provided to victims

4.2.1 In case of exposure via inhalation

Remove to fresh air. If symptoms persist, get medical attention.

4.2.2 In contact with skin

Wash affected areas thoroughly with mild soap and water. Get medical attention if irritation

develops or persists.

4.2.3 In contact with eyes

Do not rub eyes. Immediately flush with large amounts of clean, warm water (low pressure) for at

least 15 minutes or until particles are removed. If irritation persists get medical attention.

4.2.4 In case of exposure

via ingestion

If ingestion of a large amount does occur, seek medical attention.

4.2.5 Contraindications Not available.

5. Fire-fighting and explosion safety measures and means

5.1 General characteristics of fire-explosion properties

Not available.

5.2 Fire-explosion indicators

Not available

5.3 Combustion and/or thermal destruction products and

Not available.

hazards arising from these 5.4 Recommended

Dry chemical, CO2, water spray or regular foam.

extinguishing media 5.5 Forbidden extinguishing

None known.

media

5.6 Special protective equipment for firefighters

Not available.

5.7 Specific extinguishing

None established.

methods

Material name: D8J33Series

6. Accident and emergency prevention and response measures and their consequences

6.1 Measures to prevent harmful effects on people, environment, buildings, constructions, etc. in case of accidents and emergencies

6.1.1 General required actions in case of an accident or emergency

Wear appropriate personal protective equipment.

6.1.2 Personal protection equipment in case of the accident

Not available.

6.2 Procedures for the elimination of accidents and emergencies

6.2.1 Procedures in case of leaks, spills, splashes

Soak up with inert absorbent material. Slowly vacuum or sweep the material into a bag or other sealed container. Dispose of in compliance with federal, state, and local regulations. See also

section 13 Disposal considerations.

6.2.2 Actions in case of fire Not available.

Methods and materials for containment and cleaning up Dike the spilled material, where this is possible. Absorb with inert absorbent such as dry clay, sand

or diatomaceous earth, commercial sorbents, or recover using pumps.

Do not let product enter drains. Do not flush into surface water or sanitary sewer system. **Environmental precautions**

7. Storage and handling requirements of chemicals during loading and unloading

7.1 Safety precautions when handling chemical products

7.1.1 Technical safety

Not available.

measures

7.1.2 Environmental protection measures Not available

7.1.3 Recommended safe

handling and

transportation advice

Avoid contact with skin, eyes and clothing.

7.2 Chemical storage requirements

7.2.1 Terms and conditions Not available

for safe storage

7.2.2 Packaging Not available.

7.3 Safety measures and storage requirements at

Keep out of the reach of children. Keep away from excessive heat or cold.

domestic use

8. Equipment for monitoring exposure and personal protective equipment

8.1 Parameters of the working area that require monitoring

Occupational exposure limits

Hygiene Norm GN 2.2.5.1313-03. Executive No. 76 of 30 April 2003. Maximum allowable concentration (MAC) of harmful substances in the air of working zones, as amended

Components	Туре	Value	Form	
2-pyrrolidone (CAS 616-45-5)	Ceiling	10 mg/m3	Aerosol.	

8.2 Measures to ensure the content of harmful substances in the working area below the exposure level concentration

Exposure limits have not been established for this product.

Appropriate engineering

Use in a well ventilated area.

controls

toxicity - single exposure

Material name: D8J33Series sps Russia

Specific target organ toxicity - repeated exposure

Based on available data, the classification criteria are not met.

11.4 Information on health hazards in case of direct exposure to the product and its effect

Effect on upper respiratory

tract irritation

Not available.

Respiratory or skin

sensitization

Not available.

Respiratory sensitization

Based on available data, the classification criteria are not met. Skin sensitization Based on available data, the classification criteria are not met. Skin corrosion/irritation Based on available data, the classification criteria are not met.

Serious eye damage/eye

irritation

Based on available data, the classification criteria are not met.

Based on available data, the classification criteria are not met. **Aspiration hazard**

11.5 Information on long-term hazardous health effects

Carcinogenicity Based on available data, the classification criteria are not met.

> Carbon black is classified as a carcinogen by the IARC (possibly carcinogenic to humans, Group 2B) and by the State of California under Proposition 65. In their evaluations of carbon black, both organizations indicate that exposure to carbon black, per se, does not occur when it remains bound within a product matrix, specifically, rubber, ink, or paint. Carbon black is present only in a

bound form in this preparation.

Reproductive toxicity Based on available data, the classification criteria are not met.

> 2-pyrrolidone: This component showed developmental effects only at high doses that were toxic to pregnant test animals (OECD Testing Guideline 414: Prenatal Developmental Toxicity Study). Uptake by people of small doses is not expected to cause developmental toxicity. This component has not caused adverse effects on sexual function or damage to fertility in an animal study (OECD

Testing Guideline 443: Extended One-Generation Reproductive Toxicity Study).

Based on available data, the classification criteria are not met. Mutagenicity

Cumulativeness Not available. **Chronic effects** Not available.

Based on available data, the classification criteria are not met. 11.6 Acute toxicity data

Disclaimer

This Safety Data Sheet document is provided without charge to customers of HP. Data is the most current known to HP at the time of preparation of this document and is believed to be accurate. It should not be construed as guaranteeing specific properties of the products as described or suitability for a particular application. This document was prepared to the requirements of the jurisdiction specified in Section 1 above and may not meet regulatory requirements in other countries.

This safety data sheet is meant to convey information about HP inks (toners) provided in HP Original ink (toner) supplies. If our Safety Data Sheet has been provided to you with a refilled, remanufactured, compatible or other non-HP Original supply please be aware that the information contained herein was not meant to convey information about such products and there could be considerable differences from information in this document and the safety information for the product you purchased. Please contact the seller of the refilled, remanufactured or compatible supplies for applicable information, including information on personal protective equipment, exposure risks and safe handling guidance. HP does not accept refilled, remanufactured or compatible supplies in our recycling programs.
