## 4. First-aid measures

<b>Inhalation</b>	Move to fresh air. Keep victim warm. If symptoms persist, get medical attention.
<b>Skin contact</b>	Remove contaminated clothing. Wash affected area with mild soap and water. Do not use solvents to remove product residues from skin. If irritation persists get medical attention.
<b>Eye contact</b>	Do not rub eyes. Remove contact lenses, if present and easy to do. Immediately flush with large amounts of clean, warm water (low pressure) for at least 15 minutes or until particles are removed. If irritation persists get medical attention.
<b>Ingestion</b>	If the material is swallowed, get immediate medical attention or advice -- Do not induce vomiting.
<b>Most important symptoms/effects, acute and delayed</b>	Not available.

---

## 5. Fire-fighting measures

<b>Suitable extinguishing media</b>	Dry chemical, foam, carbon dioxide, water fog.
<b>Unsuitable extinguishing media</b>	Do not use water jet.
<b>Specific hazards arising from the chemical</b>	Fire will produce dense black smoke containing hazardous combustion products (see section 10).
<b>Special protective equipment and precautions for firefighters</b>	Avoid runoff into storm sewers and ditches which lead to waterways.

---

## 6. Accidental release measures

<b>Personal precautions, protective equipment and emergency procedures</b>	Remove all sources of ignition. Ensure adequate ventilation. Avoid inhalation of vapors or mists. Wear appropriate personal protective equipment.
<b>Methods and materials for containment and cleaning up</b>	Clean with detergents. Avoid solvents.
<b>Environmental precautions</b>	Do not let product enter drains. Do not flush into surface water or sanitary sewer system.
<b>Other information</b>	Soak up with inert absorbent material. Slowly vacuum or sweep the material into a bag or other sealed container.

---

## 7. Handling and storage

<b>Precautions for safe handling</b>	<p>Vapors are heavier than air and may spread along floors. Vapors may form explosive mixtures with air. Prevent the creation of flammable or explosive concentrations of vapor in air and avoid vapor concentration higher than the occupational exposure limits.</p> <p>The product should only be used in areas from which all naked lights and other sources of ignitor have been excluded. Electrical equipment should be protected to the appropriate standard.</p> <p>Take precautionary measures against static discharges. Ground and bond containers when transferring material. Wear shoes with conductive soles.</p> <p>Keep container closed. Keep away from heat, sparks and open flame - No smoking. Use non-sparking tools when opening or closing containers.</p> <p>Avoid contact with skin, eyes and clothing. Do not breathe gas/fumes/vapor/spray. Avoid breathing dusts from this material.</p> <p>Do not use pressure to empty drums.</p> <p>Wash hands before eating.</p> <p>Do not empty into drains.</p>
<b>Conditions for safe storage, including any incompatibilities</b>	<p>Keep at temperatures between 5 and 35°C.</p> <p>Store in accordance with local/regional/national/international regulation.</p> <p>Keep in cool, well-ventilated place away from ignition sources, oxidizing agents, strong alkalis, and strong acids.</p> <p>Store in a closed container away from incompatible materials. Store in upright position only. Store in a place accessible by authorized persons only.</p>

## 8. Exposure controls/personal protection

<b>Occupational exposure limits</b>	No exposure limits noted for ingredient(s).
<b>Biological limit values</b>	No biological exposure limits noted for the ingredient(s).
<b>Exposure guidelines</b>	None established.
<b>Appropriate engineering controls</b>	Use in a well ventilated area. Additional area ventilation or local exhaust may be required to maintain air concentrations below recommended exposure limits.

### Individual protection measures, such as personal protective equipment

<b>Eye/face protection</b>	Wear safety glasses; chemical goggles (if splashing is possible).
<b>Skin protection</b>	
<b>Hand protection</b>	Wear appropriate chemical resistant gloves.
<b>Other</b>	Use personal protective equipment to minimize exposure to skin and eye. Use impervious gloves.
<b>Respiratory protection</b>	A NIOSH- approved air purifying respirator with an organic vapor cartridge or canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits. Use a positive-pressure air-supplied respirator if there is any potential for an uncontrolled release, exposure levels are not known, or any other circumstances where air-purifying respirators may not provide adequate protection.
<b>Thermal hazards</b>	Not available.
<b>General hygiene considerations</b>	Handle in accordance with good industrial hygiene and safety practice. Launder contaminated clothing before reuse. Keep away from food and drink.
